

AMENDMENTS TO THE SPECIFICATION:

Amend the specification as follows:

Please amend the following paragraph entitled “Brief Description of the Drawings”, bridging pages 15 and 16 (page 15, line 16 through page 16, line 2) with the following rewritten paragraph:

Brief Description of the Drawings

Fig. 1 is a vertical sectional view of a rotary compressor according to a first embodiment of the present invention;

Fig. 2 is a lateral sectional view of the rotary compressor shown in Fig. 1 taken along the arrow Z-Z in Fig. 1;

Fig. 3 is a vertical sectional view of a rotary compressor according to a second embodiment of the invention;

Fig. 5 is a vertical sectional view of a rotary compressor according to a third embodiment of the invention;

Fig. 6 is a vertical sectional view of a rotary compressor according to a fifth embodiment of the invention;

Fig. 7 is a vertical sectional view of a scroll compressor according to a sixth embodiment of the invention;

U.S. Patent Application Serial No. 10/533,286
Response filed September 14, 2007
Reply to OA dated June 14, 2007

Fig. 8 is a vertical sectional view of a conventional rotary compressor;

Fig. 9 is a vertical sectional view of a conventional scroll compressor;[[and]]

Fig. 10 is a detailed sectional view of a periphery of an oil separating plate of a conventional compressor; and

Fig. 11 is a vertical sectional view of a compressor of the invention showing two different sizes holes one which is closer to a central portion of the porous plate and another one that is closer to an outer periphery of the porous plate.
